

# Data Privacy Tips

## CREATE STRONG PASSWORDS.

Use passwords that are hard to guess. If any of your other accounts use the same password, change them and keep track of it using a password manager.

## BE CAREFUL OF WHAT YOU DOWNLOAD.

Don't download content from sites that are not trustworthy. These may contain malware.

## TURN ON PRIVACY SETTINGS.

Take control of how companies use your data by enabling privacy features.

## THINK BEFORE YOU POST.

Avoid posting sensitive personal information online. Don't share too much information either.

## USE AN ANTI-VIRUS PROGRAM.

Keep your anti-virus software updated so it can detect potential threats in your system.
