Notice to Members

Date: 18th November 2026

Sarsfield Credit Union is aware of media reports concerning a cybersecurity incident affecting some credit unions.

We wish to reassure our members that we do not use the IT Provider mentioned in reports, and our own IT provider has confirmed that our credit union has not been affected by this incident. Our services continue to operate as normal, and no action is required by members in response to this incident.

As always, we encourage members to remain vigilant regarding suspicious calls, emails or text messages. If you are unsure about any communication, contact your credit union directly using its official telephone number or website.
